Professional Summary

.NET Developer with 1+ year of experience at LTIMindtree, working on enterprise applications for Eaton. Experienced in Angular UI development, ASP.NET Core Web APIs, RESTful services, SQL Server, and Azure DevOps. Strong understanding of frontend-backend integration, Agile Scrum practices, and delivering production-ready features in Agile environments.

Education

Smt. Kashibai Navale College of Engineering **2020 – 2024**
Bachelor of Engineering *Pune, MH*

Experience

LTIMindtree **Dec 2024 – Current**
Software Engineer (.NET Developer) *India*

Eaton Client Project *March 2025 – Present*

- Contributed to backend and frontend development of client-facing applications for the Eaton client.
- Developed RESTful APIs using ASP.NET Core Web API and C# for product takeoff workflows.
- Implemented Angular-based UI components integrated with backend services.
- Worked with SQL Server for data retrieval and persistence across application modules.
- Pushed code changes through development and QA environments following defined workflows.
- Used JIRA boards to manage tasks, track progress, and update work items.
- Communicated regularly with the Product Owner to clarify requirements and provide implementation updates.
- Created and maintained technical documentation in Confluence to track developed features and changes.
- Acted as the primary developer within a two-member offshore team, taking ownership of feature implementation and coordination.

Projects

Training Hub

Mini Project (Team of 5) *Dec 2024 – Feb 2025*

- Implemented JWT-based authentication and role-based access control for Trainer (Admin) and Member workflows.
- Implemented RESTful APIs using ASP.NET Core Web API and C# for training and user management.
- Designed SQL Server database schema for trainers, members, trainings, and diet plans.
- Integrated Angular frontend with backend APIs for secure data flow.
- Implemented training enrollment and approval workflows allowing users to request trainings and track progress.

Skills

- **Languages**: C#, TypeScript, Java (foundational)
- **Backend Technologies**: ASP.NET Core, Web API, Entity Framework Core
- **Frontend Technologies**: Angular, HTML, CSS
- **Database**: SQL Server
- **Tools**: Azure DevOps (Repos, Boards), Git
- **Concepts**: REST APIs, JWT Authentication, Role-Based Access Control, Agile Scrum

Certification

· Google Cloud Certified - Professional Data Engineer

Extracurricular

· Demonstrates commitment to continuous learning and technical skill enhancement.
· Experienced in collaborative development within Agile team environments.
· Strong communication skills with ability to work across cross-functional teams.
